**Amendment No. 2 to RFQ-OH-11-00064**

This Amendment No. 2 to RFQ-OH-11-00064 answers questions posed by prospective offerors. The hour and date specified for receipt of offers remains unchanged.

**Question 1:** Attachment D, page 1 of 12, Response to Non-Price Evaluation 1)(b) states "Include in your quotation a list of at least 3 contracts and subcontracts completed in the last 3 years, and all contracts and subcontracts currently in progress, which are similar in scope, magnitude, and complexity to the requirement described in this solicitation." The statements "at least 3 completed in the last 3 years" and "all contracts and subcontracts currently in progress" make it unclear as to what they are asking for. Do they mean to say a minimum of 3 contracts and/or subcontracts of similar size, scope, and complexity. Completed contracts must have been performed within the last 3 years? Or do they want you to provide all on-going projects AND at least 3 completed in the last 36 months? We are concerned over the need to provide a vast list of contracts over the past three years?

**Response:** Your quotation should include:

- All contracts and subcontracts completed in the last 3 years (at least 3, if available) which are similar size, scope and complexity to the requirement described in the solicitation.
- All contracts and subcontracts that are currently in progress (at least 3, if available) which are similar size, scope and complexity to the requirement described in the solicitation.

**Question 2:** In regards to page 14 of Attachment A – Performance Work Statement, Task 6 – Voice and Video Telecommunications Support - Telecommunications Support for NORTEL Meridian Option 61C PBX System Architecture and Octel Voice Services, which indicates that EPA is implementing Voice over IP (VoIP). Is this work being performed EPA-wide? Any idea of an anticipated time frame for implementation and completion of migration to VoIP architecture?

**Response:** The VoIP Implementation is being done Agency-wide. At this time, there is not an exact implementation date, but it is expected to happen within 6 months of the anticipated 01/01/2012 start date of the new task order.
